Subject: OU-7 Meeting Discussion Points

.....
>>>>>

Harry and Dante, I sat down with Jeryl this afternoon to come up with some discussion points for tomorrow's OU-7 meeting. Mostly just thinking out loud. Our goal is to try to get on the same page with you, so if a hand off occurs, it's fairly seamless for those involved. Thanks.

- Need to collaborate with EPA on the RI direction...goals and objectives...risk drivers.
- Where's ARC currently falling down? Angeles characterizes them as dismissive with respect to OU-7.
- Background investigation thoughts? Other drain influences?
- Do we have a strong/current CSM that provides a roadmap? Do we need to update the CSM?
- Do we have a feel for when the YPT investigation results will be available?
- Are there any current data gaps? How would those data gaps be filled?
- Where does EPA feel we'll be from a schedule perspective in September when deferral may occur?
